Guide

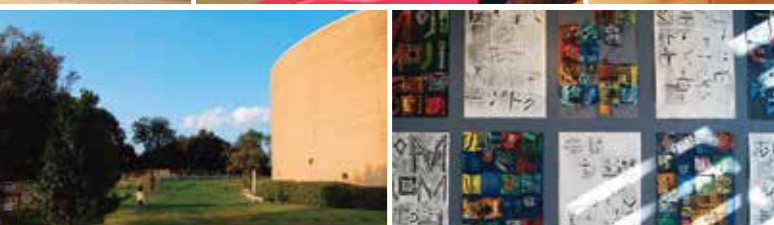

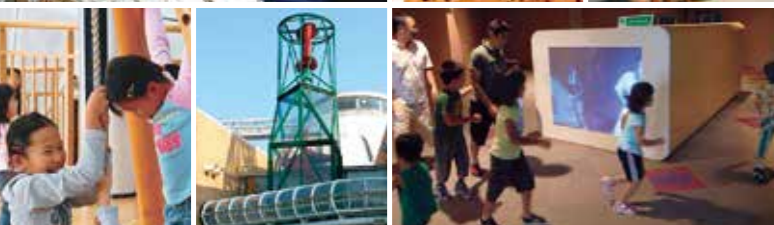

Aichi Children's Center is an “asobi”-themed, large scale prefectural children's center.

“Asobi” is more than just to “play”. It's to meet, feel and notice the things around us. Something our children, who carry the future, can be uplifted about with their minds and bodies. This center offers the time and space to encourage this experience.

“Exciting Discoveries for Everyone!”

We support children and adults to find their own “self” through “asobi” and new experiences.
